

Katrin Trierweiler:

Katrin was born in Luxembourg in 1986 where she started her music career at the age of five in the children's choir of the music academy of Luxembourg. Two years later, she started playing the trumpet and finished up in the Conservatory with a 1re accessit. As a teenager, she continued to sing at the Conservatory, began her studies in classical voice before finishing her school in a music class at the Athenée de Luxembourg. During these years, she was a member of the International Youth Choir Robert Schuman as well. In 2007, when she moved to Mannheim to study „Elementare Musikpädagogik“ (music education in early childhood), the first step to becoming a professional musician was taken. During the time she spent in Mannheim, she sang in different choirs, e. g. Chamber choir of the Music High School in Mannheim. She still sings in the Chamber choir of Saarbrücken, where she had the opportunity to participate in big classic concerts including singing in the Festspielhaus in Baden Baden, international choir contests in Italy and Hungary, as well as CD productions. After finishing her music teacher diploma, she started working in this profession in Luxembourg. Singing was her first love and she continuously tries to find new styles of expression in her music/songs. Alongside her classical repertoire she sings jazz, weddings and gospel concerts. This is why she joined the 5ive Inspirations in 2011.
